Clearwave Fiber does not require a contract for residential services. Clearwave Fiber Internet service plans feature unlimited data with no data caps and no overage charges. Intentional speed reductions may be triggered at the customer-level when an individual customer drives network congestion that negatively impacts other customers. Not available in all areas. Broadband speeds may not be available in all areas, are not guaranteed, are subject to a number of factors and are measured via direct connection (not via Wi-Fi). "Equally Fast" upload and download speeds require purchase of symmetrical service offering. ©2022, Clearwave Fiber LLC; logos are registered trademarks and as such, protected property of their respective companies; all rights reserved.
